INTRODUCTION

Another edition of Digest of Local Government Statistics is being produced by the State Bureau of Statistics for the year 2020. The major aims and objectives of the publication is to present information on the activities of the sixteen (16) Local Governments, Local Government Training School, Ilawe - Ekiti and Local Government Service Commission, Ado - Ekiti.

The publication which is eighth (8th) in the series has eight sections covering Population and Land Mass, Personnel Records, Public Finance, Infrastructure/Public Utilities, Self Help/Community Development Projects, Hotels/Tourist Centres, Traditional Institution/Political Structure, Public Health, Agricultural products and others.

The data set and information on interconnection of basic socio-economic indicators affecting development at various Local Government levels were revealed. Some diagrammatic illustrations in form of graphs and charts were used for easy interpretation and understanding of the results.

The publication will definitely be of great significance to the Government, Researchers, Organized private sector and Local/International donor agencies.

SECTION ONE: POPULATION AND LAND MASS

1.1 POPULATION

The section shows the population and land mass of all the 16 Local Governments in the State. Using the 2006 population census as base year, projection was done for 2019 and 2020 which shows that population of Ekiti which was 2,398,957 in 2006 rose to 3,665,798 in 2019 and further to 3,785,001 in 2020. Through all the years, Ado Local Government has the highest population of 521,323(14.22%) followed by Ijero Local Government with 334,573 (9.13%) and Ekiti West with 270,828 (7.39%) Ilejemeje has the least figure of 65,534 (1.79%). It is noteworthy that apart from Ikere and Efon Local Governments, the male population is higher than the female counterpart in all Local Governments therefore, the record shows that there are more male in the State than female. See table 1.0 for details.
