| | ii. Emergency, Sanitation and Environmental Development | 87 - 94 |
| 5.6 | Agenda 6: Arts, Culture and Tourism | 95 – 96 |

FOREWORD

Ekiti State has produced twelve (12) versions of the Medium-Term Economic Framework (MTEF) document since the maiden edition in 2012. As it is customary, this edition has been prepared with inputs from various Ministries, Departments and Agencies (MDAs) and other stakeholders. We are assured that the document will improve macroeconomic balance and promote fiscal discipline as it will serve as an effective guide, including but not limited to setting the ceiling for the 2024-2026 Budgets.

This MTEF 2024-2026 has been put together in compliance with Section 12 of the Ekiti State Fiscal Responsibility (First Amendment) Law, 2020 and is derived from the 30-year Ekiti State Development Plan (2021-2050). The document takes cognizance of the 6 pillars of the present administration namely: Agriculture and Rural Development, Infrastructure and Industrialization, Youth Development and Job Creation, Human Capital Development, Art, Culture and Tourism and Governance.

The Ekiti State MTEF 2024-2026 contains government priorities and projects to be implemented to engender a sustainable economic development of the State. The fiscal document will serve as a guide to enable the State

Government utilize the available resources in the overall interest of the people and the realization of the Shared Prosperity vision of the Oyebanji administration. In pursuit of this, the State Government has allocated resources to improve all the critical sectors namely: Health, Infrastructure, Education, Governance, Agriculture, Justice, Environment, among others.

In preparing this document, the State Government took into consideration, the prevailing national and global economic outlook. The document also considered and made provisions to cushion the effect of petrol subsidy removal and exchange rate unification on the populace.

I am of the considered opinion that the Ekiti State MTEF 2024 -2026 will further promote fiscal discipline, transparency and accountability, and enhance effective Budget implementation in the State.

Mr. 'Niyi Adebayo Honourable Commissioner for Budget, Economic Planning and Performance Management, Ekiti State.
